REMARKS

The figures of births and deaths shown in this statement for week ending the 7th September, 1957 relate to 169 towns with an estimated population of 25,522 thousands. Information about Andhra Pradesh, Assam, Kerala, Madhya Pradesh and West Bengal could not be included. The total number of towns is 319 and their population is 42,930 thousands. Thus 53% of the total number of towns representing 59% of the total population is covered in this statement. The

number of births and deaths recorded in these towns were 15,002 and 7,358 representing birth and death rates of 30.6 and 15.0 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population. The following table gives the position by States :—

REMARKS

The figures of births and deaths shown in this statement for week ending the 14th September, 1957, relate to 177 towns with an estimated population of 25,730 thousands. Information about Andhra Pradesh, Kerala, Madhya Pradesh, Rajasthan and West Bengal could not be included. The total number of towns is 319 and their population is 42,930 thousands. Thus 55% of the total number of towns representing 60% of the total popu-

lation is covered in this statement. The number of births and deaths recorded in these towns were 17,155 and 7,724 representing birth and death rates of 34.7 and 15.6 per thousand of population respectively.

No town recorded high death rate of 50 or over per thousand of population. The following table gives the position by States:—
